

**The Kitchen Cabinet Manufacturers Association has only certified a handful of companies as “Green Companies”, through their Environmental Stewardship Program.**

**Michiana Fireplace is a proud dealer of Armstrong cabinetry for Elkhart County.**

Developed in 2006, the groundbreaking Environmental Stewardship Program grants annual certification to those manufacturers who meet a stringent set of environmental criteria. The criteria are designed to promote the sustainability of natural resources, reduce waste, and to reward those companies who are going above and beyond in their efforts to reduce environmental impacts.

**Armstrong Green Cabinets: Environmentally Certified  
by Kitchen Cabinet Manufacturer's Association**
