

GREEN BUILDING

LP® SmartSide® Trim & Siding can help builders work toward certification quickly and easily!

- **LP SmartSide** products use 100% SFI-certified wood from small diameter, rapidly regenerating trees.
- As engineered products, LP SmartSide Trim and Siding use less raw material and offer more consistent performance than traditional products.
- Because they are treated with environmentally-friendly borates to resist rot, termites, and mold, LP SmartSide products have enhanced durability that enables LP to offer a 50-year limited warranty.

GREEN ATTRIBUTE

- Renewable Materials
- 3rd Party-Certified Wood Products
- Engineered Products
- Enhanced durability
- Reduce materials & waste

WHY LP SMARTSIDE QUALIFIES

- Wood-Based Product
- SFI-Certified Wood
- Engineered Product
- Treated to resist rot, termites, mold, etc with zinc borate
- 50-year limited warranty
- Some lines require no additional finish

LP products are a natural choice for building green.

As wood-based products they:

- have a low environmental impact
- are a renewable resource

As engineered products they:

- use raw materials more efficiently than traditional products
- are made with low-emitting, safe resins

All of LP's wood-based products are made from third-party certified wood from sustainably managed forests.

GREEN BUILDING PROGRAMS

Selected Green Building Programs where LP® SmartSide® Gives Builders Points Toward Certification:

Program	Category	Section	Item	Description	Points
	Resource Efficiency	Renewable Materials	2.6.1	Use materials manufactured from renewable resources or agricultural byproducts such as soy-based insulation, bamboo, or wood-based products	3
			2.6.2	Use certified wood for wood and wood-based materials and products from all credible third-party certified sources	4
		Enhance Durability and Reduce Maintenance	2.2.8	Use termite-resistant materials for walls, floor joists, trusses, exterior decks, etc., in areas known to be termite infested	7
 BUILT GREEN® BUILT BETTER™	Material Resource Efficiency	Exterior Wall Finishes		Use Third-Party Certified Sustainably Harvested Wood or OSB (100%)	
			XVIII.141	Min. 50% of Exterior Wall Area	3
			XXIII.144	Fascia, soffits, or trim	2
	Resource Efficient Building Materials	Advanced Products	286	Engineered exterior trim including soffit, fascia, and trim	1
			306	Exterior cladding (min 3 sides) with 40-year warranty or durable natural material	1
